

EVENTICA MULTIPURPOSE ROOM NEW CAST CENTRE – CASTIONE

THE ROOM

Eventica is the result of a careful planning, designed to guarantee absolute flexibility. It is on the second floor of Block A and it has a surface area of 1,525 square meters. The wide inner spaciousness is enhanced by the characteristic vault ceiling made of white wood, with its highest point at 6.20 m. The wide glass wall in front of it has been designed to give a pleasant natural lighting. If necessary it can be completely darkened with sliding curtains. The access to the room is possible from two staircases and two elevators. Toilets on the first floor have been designed to allow accessibility even to people with movement difficulties. Modern dividing

panels also guarantee acoustic privacy of these places. In addition to independent technologies, such as air-conditioning, public address system, LED lighting, and wide service areas and backstage, the main body of the centre is completed by four specific rooms that can be used for translators, as dressing rooms for actors, as lounges, etc. The area for catering operators is equipped with a service elevator, allowing arrival of goods directly from the external yard.

THE CAST CENTRE

The Eventica room is in the new Cast Centre in Castione. It's in Via San Gottardo 18, two minutes far from Bellinzona Nord motorway exit. The Cast Centre is in the vanguard regarding ecological sustainability and it can host commercial, artisan and professional activities.

The innovative aesthetics of the centre, photovoltaic panels and the care for architectural details give the centre a young, professional and functional style. The locality is also provided with a recently renovated railway station, connecting Castione to the main Swiss towns (Locarno, Basel, Lucerne, Lugano).

The room is dynamic and customizable, it is suitable for every kind of event, from weddings to gala dinners up to cabaret shows. The inner modules of the room allow to independently manage spaces. You can find a restaurant for the room, parking lots, accessibility for the disabled and technical support (audio, video, lighting) for every kind of event. Moreover it is easily accessible for those who would like to do business without any waste of time.

THE MULTIPURPOSE ROOM CAN BE USED FOR:

- receptions
- weddings
- fashion shows
- conventions
- exhibitions
- private parties
- shows
- performances
- plays
- company courses

HOW TO GET THERE

The Cast Centre can be easily reached by FFS and TILO trains. As an alternative, if using a car, take Bellinzona Nord exit on the Basel–Chiasso motorway. The Eventica room boasts the best accessibility thanks to its central position, in the middle of the branch road of the two most important Swiss arterial motorways and in front of the cantonal road.
